FEATURES

Stickers are the key to this imaginative adventure. Battles are turn-based like in the original Paper Mario game, but instead of an attack menu, Mario whomps on his enemies using a sticker to attack. Stickers not only serve as Mario's attacks, but also help solve puzzles throughout the Paper Mario universe when placed in the correct spots. Stickers can be found and collected from all corners of the world, and the flashier the sticker, the more powerful it is.

Mario can also spend coins to use the Battle Spinner, which lets him use up to 3 stickers in one turn if the icons are lined up just right. The Battle Spinner can turn the tide in a difficult battle, so collecting coins through the game to use it is crucial.

Paper Mario: Sticker Star players get stronger by beating bosses, finding items and completing side missions for other characters in the game instead of accumulating experience points.

As players progress through the game, they'll find and use more powerful stickers to boost Mario's attack power. Players can also find HP-Up hearts to further boost Mario's maximum health.

The environments in Paper Mario: Sticker Star come to life in this visually-stunning papercraft world on the Nintendo 3DS family of systems. They also contain a wide range of objects such as electric fans, scissors and radiators that can be converted into more stickers, which can then be used to solve puzzles or win battles as Mario maneuvers through each level.

New Ways to Play and Share Your Mario Fun

New Super Mario Bros. U features new ways to play with the Wii U GamePad controller in a side-scrolling adventure with off-TV play or Boost Mode play. Play through as Mario, Luigi, Toad or even as your own personal Mii character, and explore new worlds, new power-ups and new ways to play. Up to five players* can jump into the fun, with up to four people using Wii Remote™ controllers and one on the Wii U GamePad. The experience is different, depending on which controller is used.

FEATURES:

The Wii U GamePad controller offers a new way to experience multiplayer Mario fun. Create Boost Blocks out of thin air to help players navigate tricky stages or access hidden or hard-to-reach items, and distract onscreen enemies, all with the tap of their finger or stylus.

Swoop through levels and cling to walls when Mario transforms into Flying Squirrel Mario, or gently float through the air while hanging onto Balloon Baby Yoshi™.

Boost Mode also makes cooperative speed runs possible for the first time. Use the GamePad to interact with and manipulate enemies and objects in real time, and discover new ways to find the fastest route through each stage.

Boost Rush: Using Boost Mode, two to five players work together to clear a pack of courses in the fastest time possible. The scene auto scrolls, forcing you to move ahead through the course. As you collect more coins, the scene scrolls faster. Once you've completed your run, you can watch a replay to help strategize for your next attempt.

Challenge Mode: Numerous single-player and multiplayer challenges incorporate a series of familiar Super Mario gameplay concepts in a fun, competitive way. These challenges offer high replay value as players try to achieve the best score and unlock new challenges. Boost Mode Challenges help players practice the teamwork necessary for effective Boost Mode gameplay. After finishing, players can watch a replay of their Challenge to strategize for next time.

Play on the big screen or the small screen. Switch single-player gameplay from the TV to the GamePad at any time to continue playing off-TV even when others are using the TV.

Families and friends can experience Mario together like never before with Miiverse™. See other players' comments and accomplishments while you play, and leave your own feedback for others to see when connected to the Nintendo Network™ (broadband Internet access required)

SiNG PARTY

LAUNCHES: 11.18.12
ESRB Rating: Everyone 10+ with Lyrics
Players: Unlimited
Game Type: Performance Party

Players will have the option to either purchase the game at retail stores or purchase and download the entire game through the Nintendo eShop.*

Party All Night Long

Get the party started with SiNG PARTY, a new, interactive musical performance game that will get you and your guests singing and dancing well into the night. With dozens of popular songs to choose from, everyone from novice singers to experienced entertainers will be able to join in the fun. While one person steps up as the main performer, others can dance, sing and clap along with the prompts on the TV screen, making sure everyone at the party is rocking out together.

FEATURES:

In "Party" mode, the lead singer uses the Wii U GamePad controller to view lyrics and receive cues, freeing them from the TV and allowing them to interact with the audience, making each performance more engaging and enjoyable.

There's no limit to the number of people who can join in at one time. Audience participation, such as singing, dancing, interacting with the lead singer is the key to a great performance.

In "Sing" mode, up to two singers' vocal and overall performance quality are evaluated on the TV in real time.

A variety of song selections, from the '60s to current pop hits, makes it easy for players from any generation to put on a show.

Nintendo's Greatest Game Worlds in One Giant Theme Park

Nintendo Land is a fun and lively virtual theme park filled with attractions based on popular Nintendo game worlds. Each attraction features unique and innovative game-play experiences made possible by the Wii U GamePad controller. Depending on the attraction, players can play solo, compete against other players, or even team up to play cooperatively. Up to five players can participate in dynamic multiplayer modes in select attractions.* The experiences change depending on whether players are using the GamePad, a Wii Remote controller or just watching others play on the TV screen.

FEATURES:

Nintendo Land features fun-filled theme park attractions based on Nintendo's greatest game worlds, including Mario Chase, The Legend of Zelda: Battle Quest, Pikmin Adventure and more. There are 12 attractions in all.

Different activities take advantage of the second screen of the new Wii U GamePad controller in different ways. For example, simply slide a finger across the touch screen to seamlessly fire ninja stars in the action-based Takamaru's Ninja Castle. In Donkey Kong's Crash Course, tilt the GamePad left and right to safely navigate an elaborate obstacle course.

Dynamic multiplayer that offers different experiences in the same game. Even in the same attraction, the player using the GamePad will have a completely different experience than players using the TV: In Luigi's Ghost Mansion, the player using the GamePad is able to control a ghost invisible to players using the TV. In Metroid Blast, the player with the GamePad controls an aerial gunship versus the ground-based players using the TV.

The attractions are easy to pick up and play, but also contain deeper levels of play that are sure to challenge even the most experienced gamers. *Metroid Blast, for example, contains a deep mission mode* as well as a competitive surface-air combat mode.

Attractions are grouped into three types:

Team Attractions like Metroid Blast and The Legend of Zelda: Battle Quest that offer depth and challenge for 1 to 5 players.

Competitive Attractions like Mario Chase and Animal Crossing: Sweet Day where 2 to 5 players compete against each other.

Solo Attractions like Takamaru's Ninja Castle, Donkey Kong's Crash Course and Balloon Trip Breeze, that offer simple but fun and engaging play for one player.

Each attraction has multiple fun challenges designed to keep visitors coming back for more. Players will receive stamps upon completing special challenges.

Includes Miiverse functionality (broadband Internet access required).
*Wii Remote™ and Nunchuk™ controllers may be required. Sold separately.

Ryu Hayabusa + Ayane + Wii U = Ninja Awesomeness

The solitary ninja, Ryu Hayabusa, must find a way to lift the deadly curse on his right arm before it destroys him. NINJA GAIDEN 3: Razor's Edge has been reworked to bring to Wii U the truly intense, high-speed challenge and action NINJA GAIDEN fans demand. And this time, the female ninja, Ayane, will join the battle as a new playable character in her own exclusive chapters within story mode. With more weapons and Ninpo types, a new character progression system, a redesigned battle system, a new character, two-player online co-op game play using Ryu and Ayane, and the return of dismemberment, NINJA GAIDEN 3: Razor's Edge improves upon the original NINJA GAIDEN 3 in every way and offers Wii U exclusive features and functionalities.

FEATURES:

New Playable Character: Ayane – NINJA GAIDEN 3: Razor's Edge adds a new playable character: the female ninja, Ayane, who will be available in her own exclusive new chapters within the story mode.

Chapter Challenge Mode – In this separate mode, players can progress through any of the chapters in the story mode using either Ryu Hayabusa or Ayane.

Online Co-op Multiplayer mode with Ryu and Ayane – In addition to an up to eight-player multiplayer battle mode, the game now offers Ryu and Ayane as playable characters in the two-player online co-op multiplayer mode.

Unique Wii U controls – During single-player mode, players can enjoy faster and more fluid action by using the touch screen of the Wii U GamePad controller to select weapons, execute Ninpo or see the combo chart.

New Weapons and Ninpo Types – Exclusive to the Wii U version, the game includes six weapon types and three Ninpo types for Ryu Hayabusa, allowing for greater game-play variation and deeper strategy. Ayane also comes with her own set of weapons and Ninpo types.

Character/Weapon Progression System – Using the Karma points earned during game play, players can now upgrade their weapons and Ninpo, earn new moves and increase the character HP level.

Faster, More Intense Battles – Improved enemy AI, the return of dismemberment, as well as new enemy types and battle areas have been added for greater variety in battles and increased replay value.
